Rivkin Center At A Glance

- FUNDS OVARIAN CANCER RESEARCH, WITH MORE THAN $10 MILLION INVESTED SINCE 1996
- BRINGS EDUCATION ABOUT OVARIAN AND BREAST HEALTH TO WOMEN THROUGH OUR SIGNATURE CANCAN EDUCATION PROGRAM
- SUPPORTS OVARIAN CANCER PREVENTION AND EARLY DETECTION PROGRAMS

OUR MISSION is to save women’s lives and reduce their suffering through improved treatment, early detection, and prevention of ovarian cancer.

BOARD OF DIRECTORS

Prevention & Early Detection

In 2016, the Ovarian Cancer Early Detection Program (OCEDP) transitioned from the Rivkin Center to Swedish Cancer Institute (SCI) under the direction of Dr. Thomas Brown. The True Family Women’s Center at SCI now has a screening program for women at high-risk for ovarian and breast cancer, which screened 161 women in 2016. Patients receive a comprehensive clinical evaluation, cancer risk assessment and health education, personal plan for risk reduction, high-risk surveillance and management, and genetic testing for hereditary disposition to cancer. Additional planned activities at SCI include developing a registration trial and utilizing a multimodality screening algorithm which will stratify women into low/medium/high-risk within the traditional high-risk group. The strategy is to also extend this program into additional Providence Health Services locations and other high-profile cancer centers in the coming years.
Our Vision

is that women no longer die of ovarian cancer.

Scientific Programs

In 2016, we awarded $1,046,227 in scientific grants to ovarian cancer researchers around the globe. The Rivkin Center received 162 applications for both Pilot Study and Scientific Scholar Awards. The number of applications received reinforces the value of private funding for ovarian cancer research at a time when federal funding available for this type of work remain increasingly scarce.

2016 Awards

- **12** Pilot Study Awards
- **3** Scientific Scholar Awards
- **2** Bridge Funding Awards
- **1** Challenge Grant

Since our inception in 1996, the Rivkin Center has awarded more than $10 million in ovarian cancer research grants to scientific investigators around the globe, making us one of the oldest and largest non-profit funders of ovarian cancer research.

Symposium

The 11th Biennial Ovarian Cancer Research Symposium was presented in cooperation with the American Association for Cancer Research (AACR). Over 300 people attended, representing 12 countries. 73% of attendees reported anticipating new research collaborations as a result of their participation in the Symposium.

Educational Programming

In 2016, we merged with CanCan Health, to add a vital educational component to our organizational mission. CanCan Health is now the educational program of the Rivkin Center. CanCan is an ovarian and breast health education program that empowers individuals to take action about their health, giving them tools for early detection, prevention, and self-advocacy. CanCan educates women in communities such as Seattle and the San Francisco Bay Area, and at ten of the PAC-12 college campuses.

2016 Stats

**6,100 individuals educated in 2016**

- **3,940** through our College Program
- **2,160** through our Community Program

Our Vision is that women no longer die of ovarian cancer.
2016 Financials
(January 1, 2016 to December 31, 2016)

Revenue
Fundraising Events $1,199,004
Individual & Planned Gifts $986,031
 Corporations & Public Foundations $127,998
Symposium Registrations $97,369
Total Revenue $2,410,402
Gifts In-Kind $144,497

Expenses
Programs & Distributions $1,581,591
Fundraising $340,229
Human Resources $439,974
General & Administrative $176,069
Total Expenses $2,537,863

* Figures include all cash received during fiscal year 2016. At the time of production, a formal audit of 2016 has not yet been conducted.

Program Expenses
- Scientific Grants 66.2%
- Scientific Program Expenses 14%
- CanCan Program Expenses 14%
- Research Symposia 4%
- Early Detection Screening & SPORE 1.8%
