The Event

Due to the COVID-19 pandemic, the Rivkin Center and the American Association for Cancer Research (AACR) have decided cancel the in-person Ovarian Cancer Research Symposium in 2020. Our top priority is the health and safety of the researchers, clinicians, and our local community of ovarian cancer survivors who typically attend. We will instead be hosting a weekly virtual Ovarian Cancer Research Seminar Series during September to honor Ovarian Cancer Awareness Month.

- An array of distinguished speakers representing all areas of ovarian cancer research will draw an audience of clinicians and researchers from the US and abroad to share ideas and advance the field of ovarian cancer research.

- The virtual Seminar Series addresses major needs in ovarian cancer research and treatment by educating health care providers and researchers on the latest innovations in the treatment, early detection, and prevention of ovarian cancer.

*The Seminar Series is a Continuing Medical Education activity with AMA PRA Category 1 Credits™ available.*

The Audience

- The in-person Symposium draws roughly 400 participants, including physicians, nurses, researchers, advocates for research, and ovarian cancer patients and survivors. By going virtual, the Seminar Series will become accessible to a larger number of researchers and clinicians, particularly from outside the US, who would typically be unable to travel great distances in order to attend.

- The breadth of research draws participants from all over the world. In 2018, 20% of participants were international visitors coming from 14 different countries.

About Ovarian Cancer

- Each year, approximately 22,000 women in the United States are diagnosed with ovarian cancer.

- The overall 5-year survival rate for ovarian cancer is only 47% and is markedly lower when diagnosed at later stages.

Planning Committee

The Ovarian Cancer Research Seminar Series is a Continuing Medical Education activity. All promotional activities shall be in compliance with the Accreditation Council for Continuing Medical Education (ACCME) Standards for Commercial Support. Exhibitor sponsors are required to comply with the following rules:

- Promotional activities must be identified as such and must be kept separate from CME activity sessions.
- Arrangements for commercial exhibits or advertisements cannot influence planning or interfere with the presentation, nor can they be a condition of the provision of commercial support for CME activities.
- Product promotion material or product-specific advertisement of any type is prohibited in or during CME activities. No product advertisement of any type shall be permitted in the same session as the educational activity.
- Exhibit staff is prohibited from engaging in sales or promotional activity in the education session before, during, or after the CME activity.
